1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1, after "This application" on line 7 please insert the following:  
"is a divisional application of 10/142,229, filed 5/9/02 and now allowed, which".

On page 1, after "09/855,053" please insert the following:  
"now 6,660,828".

2. The following is an examiner's statement of reasons for allowance: The polymer in claims 65 to 78 is neither taught nor suggested by the prior art. 5,247,044 teaches the preparation of a silicone polyether but column 4, line 12, specifically teaches away from oxetane reactants. 3,338, 867 teaches siloxanes containing oxetane groups but fails to teach or suggest a fluorooxetane group as required by the instant claims. Various patents teach the fluorooxetane group found in these claims (such as 5,650,483 and 5,668,251 cited by applicants) but none of these references teach or suggest a siloxane backbone having a pendant fluorooxetane as claimed. 5,208,312 and 5,436,309 teach siloxanes having pendant perfluoroether groups but again fail to teach or suggest the pendant fluorooxetane group required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
